

## Introducing the EVGA CLC Series - The Next Generation in Cooling

- Monday, October 17, 2022 □

Introducing the EVGA CLC Series - the remix you've been waiting for! The CLC Series is the sequel to the award-winning EVGA CLC All-In-One CPU Liquid Coolers.

Refreshed with Asetek's 7th Generation water pump, 3 choices of radiators, an integrated 480x480 LCD display, and the completely remodeled EVGA ARGB Fans. With a fresh new take on the AIO CPU liquid cooler market, the EVGA CLC Series provides the most efficient cooling and quietest flow yet on an EVGA AIO.

7th Generation Technology Designed, Manufactured and Tested for Quality and Performance  
 Extreme Temperature Testing to ensure product robustness  
 Helium Integrity Testing to ensure each individual cooler is virtually immune to leaks  
 Vacuum Precision Filling to ensure optimal liquid levels  
 100% traceability throughout our production process to provide valuable insight and feedback

LCD Display Monitor system vitals or play your favorite image or animation on the full-color 480x480 LCD display.  
 EVGA ARGB Fan New EVGA-designed ARGB fans provide the best balance of cooling, silence, and peace of mind through a silent Hydro-Dynamic Bearing with a long-lasting 50,000 hours lifespan.

Fit Your Rig The EVGA CLC Series is built for all types of systems and cooling needs with 3 different sizes of radiators to choose from. Select the CLC 360 for maximum cooling, the CLC 280 for higher-end needs, or the CLC 240 for everything else.

Fully Control Your Cooling with EVGA CLC Software

Adjust performance and silence to your needs by setting separate fan and pump curves.

Use the 480x480 LCD display to monitor up to 4 different vitals, cycle information, or display your favorite .gif animation.

Customize ARGB lighting effects to fit your style.

Monitor your system vitals in real-time for peace of mind cooling.
