

EVGA Announced the EVGA GTX 295 CO-OP!**Brea, California and Munich, Germany - Saturday, June 13, 2009** □

EVGA Corporation, the leading-edge 3D processor graphics cards and motherboard manufacturer, announces a new addition to the GTX 295 family, the EVGA GeForce GTX 295 CO-OP. This card combines two GPU's onto a single PCB (Printable Circuit Board), a clear indication on why this card is called CO-OP! Want even more performance? Pair up two of these for QUAD SLI, or pair up with the standard GTX 295.

In addition to the GTX 295 CO-OP Edition card, EVGA is also announcing the exclusive EVGA GTX 295 CO-OP Edition Hydro Copper Waterblock. This product is proof that EVGA is the undisputed leader for water cooling solutions! With a sleek, full cover copper design, EVGA lives up to the Hydro Copper name by incorporating only the best attributes: an extreme high flow path design with a unique, integrated, pressure point allows the Hydro Copper Waterblock to keep your GTX 295 CO-OP as cool as possible while under the heaviest of graphical loads! Also included are 3/8in and 1/2in barbs which aid in the high flow interior.
