

EVGA Announces EU30 USB 3.0 PCI-E Host Card

Brea, California - Wednesday, June 2, 2010 □ The EVGA EU30 PCI-E host card adds an additional 2 USB 3.0 ports capable of up to 5 gigabits per second of data transfer, and is also backwards compatible ensuring all your favorite USB devices still work great. PCI Express x1 support ensures compatibility for a wide range of motherboards.

Key features introduced on the EVGA EU30 USB 3.0 Host Card:

- Supports up to 5Gbps of Data Transfer
- Low Profile Design
- Backwards Compatible for all USB Devices

EVGA EU30 USB 3.0 host card will be available through EVGA's network of leading Etailers, Retailers, System Integrators, OEM System Manufacturers and Distributors soon.
