

**EVGA Corporation Selects SYNnex Corporation as Distribution Partner  
Agreement to Expand the Reach to New Customers in North America**

**Brea, California - Wednesday, August 2, 2006** □ EVGA Corporation, a leading-edge provider of NVidia® technology-based graphics cards and motherboards, today announced a strategic distribution partnership with SYNnex Corporation. Through the strategic distribution partnership, EVGA's wide range of award winning products will now be available to a broader marketplace for consumers and business.

Beginning in August 2006, SYNnex Corporation will now distribute EVGA's products for the mainstream, performance and enthusiast markets expanding the reach to new customers. SYNnex, with its strong attention to product knowledge and the ability to add incremental sales, will enhance the EVGA product name by adding new customer relationships and generating demand for EVGA's award winning product line of graphics cards and motherboards.

"SYNnex is a highly respected choice for the distribution of EVGA products," said Andrew Han, President and CEO of EVGA. "With its years of selling experience, support of the value added reseller and original equipment manufacturers, this relationship represents a great opportunity to continue our momentum in the channel." For more information on EVGA product availability at Synnex, please call (800) 756-9888.

**About EVGA**

EVGA is the #1 NVIDIA authorized partner in channel sales throughout North America. Based on the philosophy of intelligent innovation, market knowledge, and the real time operation, EVGA continues to identify the need in the market place and providing the solution to that need. By offering product differentiation, a 90 day Step-Up program, and other customer focused programs, EVGA is a clear leader in all categories: etail, retail, distribution, and system builders. With headquarters in Brea, CA, EVGA's global coverage includes EVGA GmbH in Munich, EVGA LATAM in Miami, and EVGA Hong Kong. For further information online about EVGA, visit <http://www.evga.com>.
