Hadron Hydro

Why sacrifice appearance and size when choosing a performance rig? The EVGA Hadron Mini ITX chassis was designed to not make any compromises. At a mere 169mm width and 350mm height, the EVGA Hadron chassis is extremely small, but capable of holding today’s latest hardware.

With an included 500W Gold rated power supply, support for a full sized graphics card, sleek looks and enthusiast features, the EVGA Hadron Mini ITX chassis packs a serious punch.

The Hydro version of the EVGA Hadron case has increased clearance on top to accommodate various types of watercooling.
