EVGA X58 Classified SLI™ Mainboard

Part Number: 141-BL-E759

Engineered for those who demand more than just the best

KEY FEATURES

- Enthusiast Layout supporting 2-Way, 3-Way, and 3-Way SLI™ w/ PhysX™
- 10 Phase Digital PWM w/ switching frequency up to 1,333KHz
- 300% more gold content in the CPU socket
- Dual 8-pin +12v for up to 600 watts of CPU power
- True 3-Way x16 slots
- EVGA Control Panel
- High quality ESR and ESL film capacitors

FEATURES

- Supports Intel® Core™ i7 Processors
- Intel® X58/ICH10R Chipset
- 6 DIMM Triple-Channel DDR3 1600MHz+
- Up to 24GB of memory
- EVGA Vdroop Control
- EVGA E-LEET Tuning utility
- EVGA EZ Voltage read points
- 2 Gigabit Ethernet Ports (10/100/1000)
- 8 Channel Audio
- Onboard Clear CMOS, Power, and Reset Buttons
- Onboard CPU Temperature Monitor
- Passive chipset heatsink
- EVGA SPD Utility that saves to the motherboards bios
- 100% Solid State Capacitors

DIMENSIONS

- Width: 10.375in – 263.5mm
- Length: 12in – 304.8mm

BETTER WITH EVGA

EVGA #1 Seller in U.S. on NVIDIA based products
