The EVGA DP Hub is a simple to use, multi-monitor connectivity solution between a single Display-Port source and up to three DisplayPort compatible monitors.

It's plug-and-play features allow you to enjoy the benefits of multiple monitors with a single digital output port. Ideal for graphic design, spreadsheet analysis, and productivity without the need of an additional graphics card!

FEATURES

- Easy to configure and add up to three displays.
- Hot plug compatible, does not require system shut down.
- Compatible with all existing DisplayPort graphics cards and notebooks
- Completely silent operation and portable
- Supports DisplayPort 1.2a
