

The EVGA SC HYBRID cooler for the GTX 1080 Ti is an “all in one” water cooling solution that significantly lowers the GPU and VRAM operating temperature. Best of all? The water cooler is completely self-contained with the included 120mm radiator and fan. No filling, no custom tubing, and no maintenance. Just plug and play! This upgrade kit is compatible with all reference height EVGA GTX 1080 Ti series GeForce GTX 1080 Ti graphics cards.

FEATURES

- All in one cooling solution is completely self-contained. No filling, no custom tubing, no maintenance. Just plug and play.
- Intelligent wiring system and sleeved tubing make this one sleek cooler without the messy wires.
- Variable controlled fans allow dynamic fan speed based on GPU temperature, and the water cooling efficiency means very low noise fans.
- VRM and Memory cooling solution separated from GPU, allowing for lowest GPU temperatures, and efficient VRM and Memory cooling.
- EVGA graphics cards with iCX Technology* dynamically control the VRM fan using real-time VRM temperatures.
- Compatible with all reference height GeForce® GTX 1080 Ti graphics cards.
