EVGA SC15
GEFORCE® GTX 1060 GAMING

intel | NVIDIA G-SYNC™ | GEFORCE GTX VR READY | THUNDERBOLT™

THE NEW GAMING STANDARD

The **EVGA SC15** is here to dominate the competition. Featuring a stunning **15.6" FHD IPS 120Hz G-SYNC** display, the latest **Intel® Core™ i7** quad core processor and **NVIDIA Pascal™ GPU**. The SC15 was designed meticulously from the ground up to provide the best laptop experience.

The SC15 styles a sleek design with an aluminum frame, measuring no more than **.89 inch at the thickest point**. The SC15 is a high performance laptop that can handle intensive gaming and versatile enough to bring to a meeting. It is the perfect solution for performance and style.

EVGA embodies quality performance hardware and the SC15 continues that tradition with the latest offerings from the Intel® Core™ i7 and NVIDIA Pascal™ lineups.

intel | NVIDIA G-SYNC™ | GEFORCE GTX VR READY | THUNDERBOLT™

Features

- **High-Grade Aluminum Design** – A sleek design and thin .89in thickness means this is one of the sleekest laptops around.
- **G-SYNC Display** – An AUO IPS display capable of delivering up to 1080p resolution for crystal clear graphics.
- **Incredible Hardware** – An Intel Core i7 7700HQ Kaby Lake-H Mobile processor combined with an NVIDIA GeForce GTX 1060 graphics gives you unbelievable performance in the latest games.
- **BIOS** – The EVGA SC15 Gaming Laptop ships with a REAL BIOS. This means full GUI support including mouse, complete control over all overclocking features such as the GPU.
- **EVGA PrecisionX Mobile** – EVGA Precision X Mobile allows you to control your GPU overclock settings, monitor temps, configure the RGB settings on the keyboard, and set profiles right at your fingertips.

- **CPU:** Intel Core i7 7700HQ Kaby Lake-H Mobile
- **GPU:** NVIDIA GeForce GTX 1060 6GB GDDR5
- **Memory:** 16GB 2400MHz DDR4 SO-DIMM (8GBx2)
- **Display:** AUO IPS 15.6" FHD 1080p w/G-SYNC™
- **Storage:** 256GB M.2 NVMe PCI-E SSD + 1TB 5400RPM SATA 6G
- **Weight:** 6lb, 7.35oz
- **Audio:** Realtek ALC 255, 2x 3.5mm Headphone/Mic, Stereo Speakers
- **Ethernet:** Intel i219-V 10/100/1000 Controller (RJ45)

- **Wi-Fi:** Intel AC-8265
- **Bluetooth:** Bluetooth 4.2
- **USB:** 3x USB 3.0 Type A
- **Thunderbolt:** 1x Thunderbolt 3.0 Supports 4K (4096x2160) 60Hz External Display
- **Video Out:** 1x HDMI 2.0b, Mini DisplayPort 1.4
- **Webcam:** Full HD 1920x1080
- **Keyboard:** Full Size Backlit RGB
- **Operating System:** Windows 10 Home (64 bit)

Dimensions
- Width: 16.06in - 387mm
- Length: 11.63in - 260mm
- Thickness: .89in - 22.55mm

Accessories
- 240W Power Adapter

EVGA SC15

GEFORCE® GTX 1060 GAMING

(intel) | NVIDIA G-SYNC™ | GEFORCE GTX VR READY | THUNDERBOLT™

THE NEW GAMING STANDARD

High-grade aluminum body construction – A sleek design and thin .89" thickness means this is one of the sleekest laptops around.

1080p G-SYNC Display - An AUO 1080P FHD IPS display delivers 120Hz performance to give you the smoothest gaming experience possible.

Incredible Hardware - An Intel i7 7700HQ Unlocked processor combined with an NVIDIA GeForce GTX 1060 6GB graphics gives you unbelievable performance in the latest games.
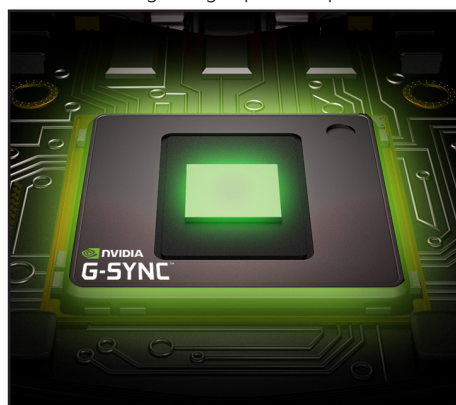

G-SYNC Display – The Nvidia G-SYNC technology synchronizes the vertical refresh of the display to the framerate in real time providing the smoothest gaming experience possible.

Built To Overclock - Overclocking on a laptop? Seems like a myth, but not here. Through PrecisionX Mobile, EVGA gives you the ability to overclock the GTX 1060 6GB graphics card.

RGB LED Backlighting – The EVGA SC15 now has full RGB LED control for the keyboard, allowing it to make it your own.

BIOS – The EVGA SC15 Gaming Laptop ships with a REAL BIOS. This means full GUI support including mouse, complete system monitoring including CPU and GPU.

EVGA PrecisionX Mobile – The power of EVGA PrecisionX, now mobile with EVGA PrecisionX Mobile. Tweak your overclock settings, profiles, and GPU overclocking right at your fingertips.
