How can I get a copy of my Newegg invoice and send it to EVGA?

How to get a copy of your invoice from Newegg

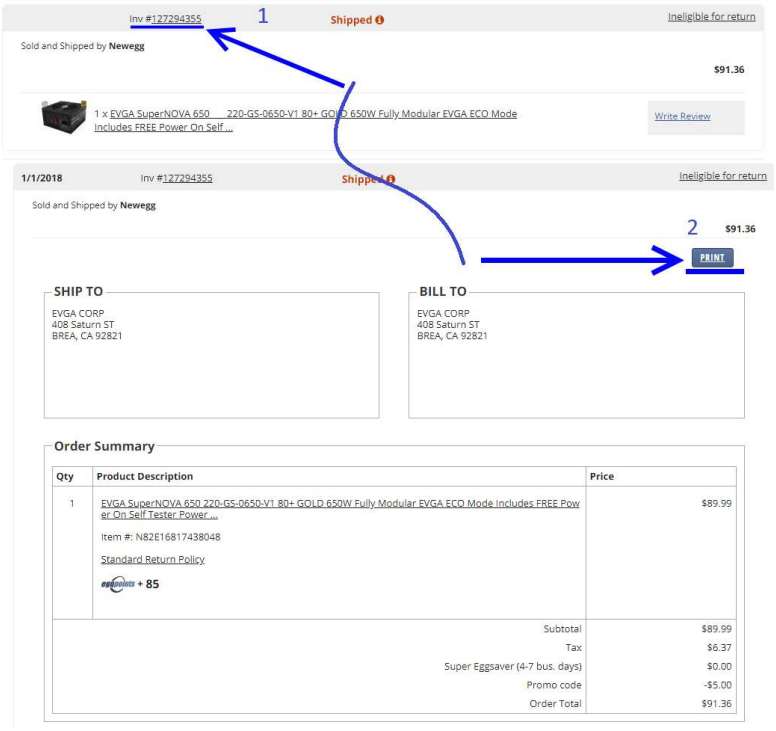

Navigate to https://newegg.com and log in to your account. Once logged in to your account, click on Customer Service and select Find Invoice.

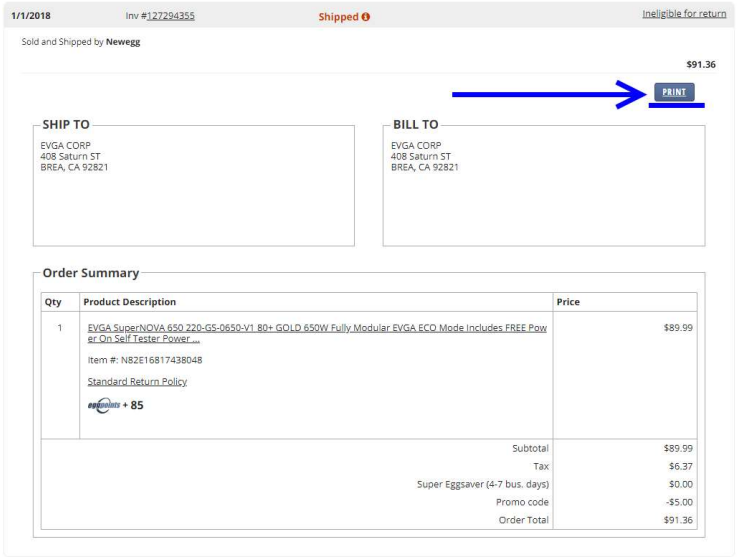

On the next page, choose the date for your purchase or select All from the Find Orders dropdown menu, then click on Find

Now click on the Invoice number and print afterwards.

A new window will pop up, click print again.

This will open a printable version of your invoice. To print this as a PDF:
Chrome: Under Destination, click Change and choose Save as PDF. Hit Save and save the PDF to your desktop by pressing the Desktop button and the Save.
Internet Explorer: Internet Explorer doesn't natively support printing to PDF, but many PDF programs do and may have added the ability to print to PDF. Follow the same instructions for Chrome, but if there is no option to print to PDF, just hit the Print Screen key (sometimes labeled as "Prt Scn" on your keyboard, open a photo program such as Paint, GIMP, or Photoshop, then press Ctrl+V to paste the screen shot to the document and save it in .JPG format.
Alternatively, you can also select "Microsoft XPS document" and save the output as an XPS document instead of a PDF. This works in Firefox as well.
You can email your invoice to Support@EVGA.com.
